LUKE'S FURNITURE CO

Handcrafted in our Wilmington workshop. Begin with an established design, then tailor the dimensions, wood, finish and details around your home.

EXPLORE. IMAGINE. MAKE IT YOURS.

A Life Well Crafted.

WILMINGTON, NORTH CAROLINA

Apex

A sculpted base gives Apex its expressive, architectural presence. Softened edges and an open silhouette bring a sense of movement to the dining room. Explore a round or elongated direction with Luke, then refine the proportions for your space.

Handcrafted in Wilmington. A starting point for your own dimensions, wood and finish.

St. James

St. James pairs a substantial hardwood top with curved trestle supports and a slim steel stretcher. The sweeping base softens its strong silhouette, bringing a balance of traditional craftsmanship and modern detail to your dining room. Its open trestle form creates an inviting setting for everyday meals and larger gatherings.

Handcrafted in Wilmington. A starting point for your own dimensions, wood and finish.

Havelock

Havelock combines a substantial hardwood top and farmhouse-inspired base with a steel stretcher and metal caps. The contrast between warm wood and crisp metal gives the design its distinctive industrial edge. Strong proportions and restrained detailing make it a natural centerpiece for relaxed, modern farmhouse and transitional rooms.

Handcrafted in Wilmington. A starting point for your own dimensions, wood and finish.

Brunswick

Brunswick captures the welcoming character of a classic farmhouse table with a substantial top and a familiar four-leg base. Its straightforward construction gives the design an honest, grounded presence. From a more traditional leg profile to a clean square form, the style can take on a character that suits your home.

Handcrafted in Wilmington. A starting point for your own dimensions, wood and finish.

Southport

Southport pairs a rectangular hardwood top with a low-profile double pedestal base. The broad supports and understated feet give the table a grounded, traditional presence. Clean lines keep the design relaxed and versatile, making it equally suited to everyday dining and a room prepared for company.

Handcrafted in Wilmington. A starting point for your own dimensions, wood and finish.

Charlotte

Charlotte pairs a round hardwood top with a single, substantial pedestal. The centered base creates a symmetrical silhouette that feels grounded and composed from every angle. Its restrained form keeps the focus on proportion and the character of the wood, offering a timeless centerpiece for your dining room.

Handcrafted in Wilmington. A starting point for your own dimensions, wood and finish.

Belville

Belville combines graceful cabriole legs with a clean, grooved apron for a fresh interpretation of traditional furniture. The curved legs bring movement and elegance, while the horizontal apron detail keeps the silhouette composed. Its balanced mix of classic shapes and restrained detailing feels at home in both traditional and transitional dining rooms.

Handcrafted in Wilmington. A starting point for your own dimensions, wood and finish.

Brooklyn

Brooklyn's surfboard-inspired top brings a softer, more flowing outline to the dining room. Its elongated curves and understated base draw on mid-century design with a relaxed coastal feel. The result is a table with a distinctive silhouette that still feels easy to live with.

Handcrafted in Wilmington. A starting point for your own dimensions, wood and finish.

Durham

Durham brings a quiet, tailored presence to the dining room with its clean top and straightforward four-leg silhouette. Tapered legs give the design a lighter, contemporary feel, while the uncluttered form lets the wood's natural character stand out. Its versatile proportions fit comfortably into modern, transitional and relaxed interiors.

Handcrafted in Wilmington. A starting point for your own dimensions, wood and finish.

Magnolia

Magnolia brings a fresh, architectural feel to a farmhouse-inspired pedestal table. Substantial supports are joined by a raised pass-through stretcher, creating a strong horizontal line beneath the top. The elevated connection keeps the lower silhouette open and gives this familiar form a more contemporary character.

Handcrafted in Wilmington. A starting point for your own dimensions, wood and finish.

Pamlico

Pamlico brings a relaxed, understated character to a round dining table. Its simple profile gives the circular top and the natural character of the wood room to stand out. The welcoming shape encourages conversation and fits easily into casual, coastal and transitional interiors.

Handcrafted in Wilmington. A starting point for your own dimensions, wood and finish.

Raleigh

Raleigh's double pedestal base gives this dining table a balanced, traditional silhouette. The paired supports create a rhythmic architectural line beneath the long hardwood top. Its substantial yet composed form brings a sense of permanence to the room and an inviting setting for gathering with family and friends.

Handcrafted in Wilmington. A starting point for your own dimensions, wood and finish.

Wrightsville

Wrightsville pairs a softly shaped top with broad wooden supports and a slim contrasting steel stretcher. Its restrained silhouette brings together natural material and crisp architectural detail. A coordinating bench can carry the same design language through the dining area.

Handcrafted in Wilmington. A starting point for your own dimensions, wood and finish.

Avon

Avon combines a sculptural crossing base with a clean hardwood top. A round surface softens the strong geometry below; a rectangular top gives the design a longer architectural line. Both directions offer an inviting balance of substance and open space.

Handcrafted in Wilmington. A starting point for your own dimensions, wood and finish.

Kure

Kure brings clean lines and carefully balanced proportions to the dining room. Straight corner legs and subtle joinery details give the table a composed, architectural character. Its restrained silhouette feels at home in modern, coastal and transitional spaces, with the top and base reading as one cohesive design.

Handcrafted in Wilmington. A starting point for your own dimensions, wood and finish.

Hanover

Hanover pairs a round hardwood top with a sculpted central pedestal and a low plinth foot. The broad, flared support gives the design a strong foundation while its softened lines keep the silhouette inviting. Its balance of simplicity and presence makes it a versatile centerpiece for both traditional and transitional dining rooms.

Handcrafted in Wilmington. A starting point for your own dimensions, wood and finish.

A Change Of Shape.

A familiar design can take a different shape. A round Apex or Avon can become rectangular; selected designs can also be developed as an oval or ellipse. We balance the top, base and seating clearances together so the new proportions work as a whole.

Apex / Rectangular

Shape-Variation Visualization

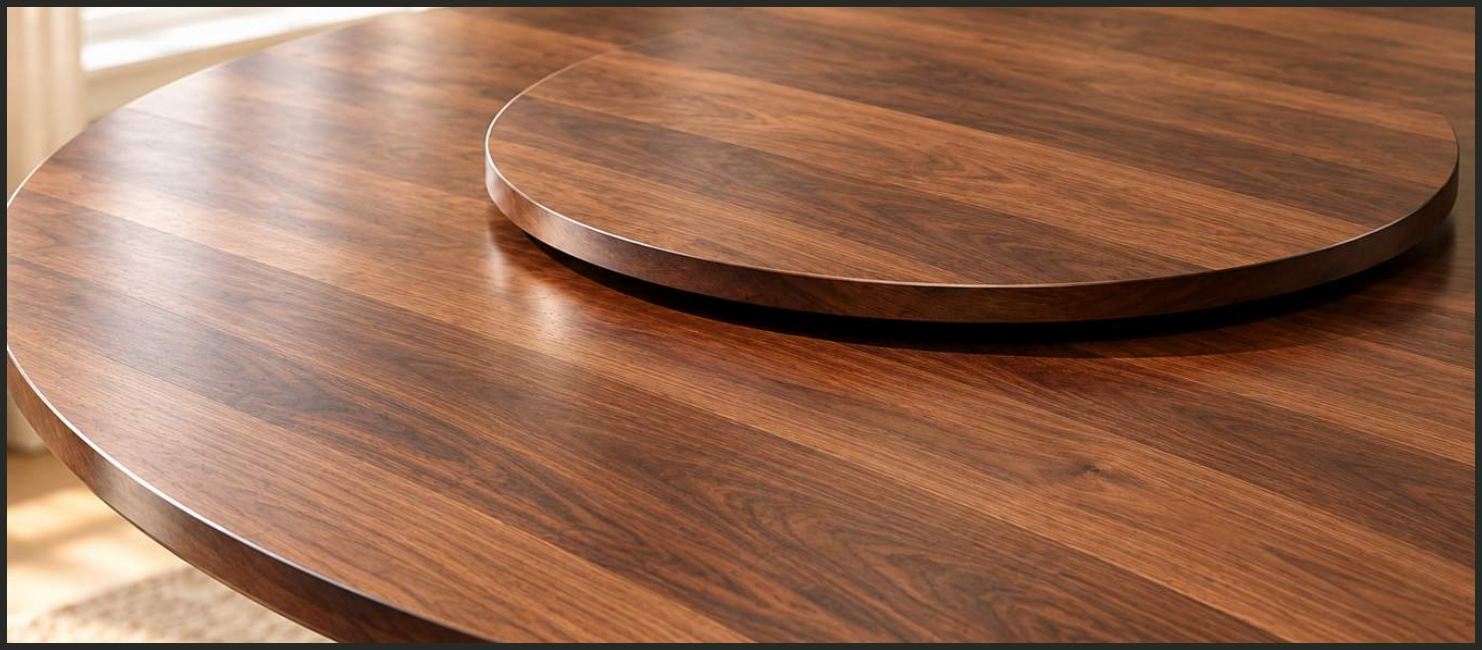

Avon / Rectangular

Shape variations are developed with the selected base; final proportions and construction are confirmed during design.

Made To Gather More.

A table can adapt to the way you host. We plan the details around the design, everyday seating and the occasions when you need more room.

A Matching Lazy Susan

A rotating serving surface brings shared dishes within easy reach. The Hanover shown here pairs a matching wood Lazy Susan with a generous round top.

Center Leaves

The tabletop opens at the center to receive an added leaf. Base placement and the opening mechanism are planned for the selected style.

End Extensions

Removable leaves extend the table at each end. Supports, overhangs and storage are considered as part of the design.

Illustrative plan views. Extension options depend on the table style and construction.

YOUR NEXT PIECE STARTS WITH AN IDEA

Let's Make It Yours.

Choose a starting point, then tell us about your room, seating needs and the details you love. Your Signature table can be developed in the size, wood and finish that suit your home, with extension options considered around the design.
